

840-0053

LARGE APERTURE OPTICAL MOUNT

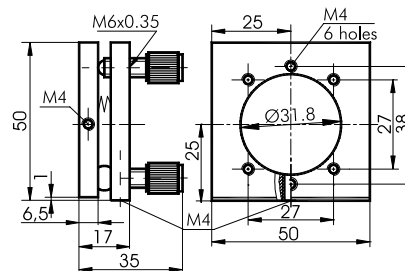

840-0053-01

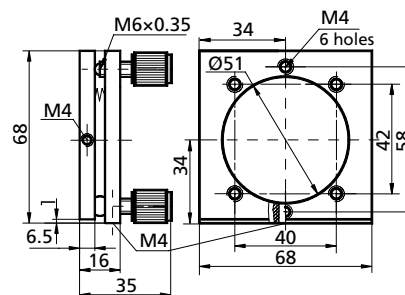

840-0053-02

The Large Aperture Optical Mount 840-0053-01 on its platform has $\varnothing 31.8$ mm aperture and six M4 mounting holes. It is designed for precise orthogonal adjustment of mirrors. The Large Aperture Optical Mount 840-0053-02 on its platform has $\varnothing 51$ mm aperture and six M4 mounting holes. It is designed for precise kinematics orthogonal adjustment of mirrors.

MINIATURE KINEMATIC MIRROR / BEAMSPLITTER MOUNT

- For $\varnothing 12.7$ mm optics (0.5 inch)
- Kinematic
- Clear edge design
- Hex key drive
- Tilt/tip range 14°
- Sensitivity 8 arcsec
- Material: black anodized aluminium
- Weight 0.03 kg
- Mirror version available

Code	Type	Accepts optics, mm	Clear aperture, mm	Price, EUR
840-0054		$\varnothing 12.7$ (0.5 inch)	$\varnothing 10.2$	60
840-0054-02	Mirror version	$\varnothing 12.7$ (0.5 inch)	$\varnothing 10.2$	60

Note: Mirror version is a right hand version of the standard model
